**TERMS.** All cash with order—except on large orders of 100 trees or more. On orders of 100 trees or more, to parties known to us to be reliable and well-rated, we will accept 10% cash with order, remainder upon arrival.

**INSPECTION.** The Certificate of our State Entomologist is attached to all shipments. No diseased or infested trees are permitted in our nurseries.

**WE REPLACE** As Follows: Stark Bro's desire is to satisfy every customer—that has been our policy for nearly 125 years. We guarantee Stark Nursery Stock to reach the customer in good condition, and we will refill absolutely **FREE** any stock that does not reach customer in good condition, provided we are notified immediately on arrival of order so that we can make claim with the railroad or other transportation company. We do not replace free, nursery stock that fails to live. Possible neglect of planter and unavoidable climatic conditions prevent guaranteeing trees and plants to grow.

**HALF PRICE REPLACE.** We will, however, Replace at 1/2 the current Each Rate Prices, any trees, etc. that die the first summer—if customer notifies us before August 1st following.

**MONEY BACK.** In the event that any nursery stock sold by Seller Company proves untrue to name as labeled, Seller Company agrees, on satisfactory proof to it of such untruthfulness to name, to refund that portion of the order so proven to it to be untrue to name, or, at its option, to refund the purchase price paid therefor, and as the Seller Company does not give any warranty, express or implied, in respect to any nursery stock sold by it, the purchaser's or any one else's damages, if any, for any breach of this contract, or any special contract herein contained, by Seller Company, shall be limited to the refilling of that portion of the order, or to the refunding of the purchase price paid therefor, as above stated. Non-delivery of stock is excused in case of fire, frost, floods, drouth, strikes, shortage of nursery stock or other causes beyond seller's control.

## A Home Orchard Will Feast YOUR Family

"A Home Orchard of 1/2 to 1 Acre will assure your family all the fresh fruit they can eat, with plenty for canning and winter storage, says Prof. T. J. Talbert, Head of Horticulture, University of Missouri, and Assoc. Editor of American Fruit Grower Magazine.

"No similar area on the farm will bring such great returns in producing the family's yearly food supply. Then, too, the care of a Home Orchard now is relatively simple — and requires very little time".

Orchard Experts selected the varieties in these Splendid Collections. If any variety becomes exhausted they will include a similar sort of equal worth.
